

I am an eager and dedicated high school student with a passion for sciences and engineering. I enjoy leveraging my academic proficiency to cultivate practical skills. I am committed to contributing positively to project teams while actively learning and growing.

**Skills:**

- Experience in Product Design and Innovation. Familiar with Engineering Graphics Concepts and Terminology
- Proficient in 3D Solid Modeling using Computer-Aided Design (CAD) Software
- Proficient in the use of 3D printing and Laser Engraving/Cutting to create prototypes
- Proficient with MSFT Office productivity apps and tools, programming: Python
- Working fluency in Romanian; Beginner in Spanish

**Education:**

Issaquah High School, Issaquah, WA *Expected Graduation Date: June/2027, Current GPA: 3.9/4.0*

Advanced Classes: AP Calculus AB; Introduction to Engineering Design; AP Chemistry; AP Principles of Computer Science.

Bellevue College, Bellevue, WA: Fundamentals of Computer Science, *Summer 2024*

Seal of Biliteracy Recipient, 2025.

**Achievements:**

- Romanian-American Heritage Award, Embassy of Romania to the United States. This award is granted to students who embody the values of leadership, academic excellence and dedication to community service - *September 2024 and September 2025*
- Pillar Award, Issaquah High School. This award is granted to students who exemplify being engaged in their learning and community - *January 2024*
- Singing Medal for Outstanding Vocalist, "Music in the Parks" competition - *May 2023*
- 6th Place Nationally, Interscholastic Equestrian Association National Finals - *April 2023*
- Interscholastic Equestrian Association National Finals - *April 2026*
- National Honor Society, *Member since 2025.*
- National Junior Honor Society, *2023.*
- Seal of Biliteracy, awarded for proficiency in English and Romanian, *2025*

**Relevant Experience:**

- Job Follow, Sonos Inc. - April 2026  
Followed different types of engineers throughout their work day and learned about their jobs. Experience included mechanical, electrical, power, analog and audio engineering.
- Volunteered to teach beginner equestrian classes, Snoqualmie WA - *Summer 2024*
- Glory Days Equestrian Internships, Issaquah WA - *Summers 2022, 2023*  
Worked in a fast-paced environment, anticipating the needs of horses and trainers  
Learned how to predict how long a task will take me, and acquired time management skills.
- Forgotten Faces Foundation *2022-present*  
A group of Romanian teens working to raise money for charitable organizations benefiting children. Example projects we sponsored with our fundraising: helped 30 Romanian children from rural areas get Christmas presents consisting of essential food and books (*Dec 2023*); organized a summer arts camp for underprivileged Romanian students (*Summer 2023*); provided funds for a school trip to famous Romanian museums for those students that don't have access to this type of learning (*Spring 2023*), refreshed a rural library (*Summer 2025*)
- Serenity Equine Rescue & Rehabilitation - *2022-2023.*  
Volunteered to help with horses' needs; I learned lame horses need love and care too.

**Extracurricular Activities:**

- Romanian language and culture classes from American Romanian Cultural Society (<https://www.arcsproject.org/>)
- Hunt Seat Equitation, USEF and WSHJA competitions. Results: 2021, 2022, 2023, 2024, 2025, 2026
